

Air Quality Compliance Inspections: Agricultural Best Management Practices (Ag BMP)

Emily Bonanni
Air Quality Inspections and Field Services Unit

What We Do:

Air Quality Inspections and Field Services Unit

Inspections
Compliance
Outreach

Why We Do It:

The mission of the Air Quality Division is to provide and enhance public health, welfare and the environment by controlling present and future sources of air pollution.

Some of our core responsibilities include:

- Providing compliance assistance with on-site visits
- Ensuring compliance with routine inspections
- Must respond to complaints within 5 days

What Must a Producer Do?

- Implement and maintain BMP's for each categories
- Keep a record detailing the BMPs selected
- Keep additional records if implementation is not easily visible
- Make Ag BMP record available to ADEQ within 2 business days of request
